The Hipotronics Model 7BT60 is a portable 60 kV AC (center tapped) test system designed to test the integrity of vacuum interrupters in switchgear. The output (current limited to 10 mA) is programmed to raise voltage at a preset rate to the desired test level. Once the unit reaches the preset voltage a dwell timer will hold the voltage at that level for the preset time duration. After the dwell time has elapsed, the unit will return to zero. Any failure during the test will be indicated on a “failure” lamp located on the front panel, and the breakdown voltage will be indicated on the Memory kV meter.

**FEATURES**

- Automatic Testing
- 0 ... 60kV AC Output
- Dwell Timer
- Memory Kilovoltmeter
- Pre-settable Output Kilovoltmeter
- Failure Indicator Lamp
- 500 and 3000 V/sec Rise Time
- Removable High Voltage Section for operator safety
- Rugged Field Case
- Field Proven Reliability

**BENEFITS**

Go, No-Go Test - a pass / fail indicator lamp provides immediate, visual indication of test results

Easy to Use - with a minimum amount of set up time and user training means testing can start right away

Field Portable - this self-contained, single piece unit is suitable for field use

One Step Testing - the user sets the desired test parameters and the sequence is automatically run

**APPLICATIONS**

Used to test vacuum interrupters in switchgear. Typically used by:

- Electric Utilities
- Test Companies
- Petrochemical Utilities
- Facility Maintenance

SCOPE OF SUPPLY

Qty. 1 7BT60 Vacuum Interrupter Tester with 60 kV center tapped transformer
Qty. 1 Interconnect Cable, between control section and base, 25 feet (7.6 m)
Qty. 2 Test Leads, 10 feet (3 m)
Qty. 1 Power Line Cord, 6 feet (1.8 m)
Qty. 1 Calibration Certificate
Qty. 1 User’s Manual

ORDERING INFORMATION

System

60 kV, 20mA AC Hipot 7BT60-A or 7BT60-B

Accessories

Spare Parts Kits SPK1-7BT60
